

Legislative Council Environment and Planning Committee

Inquiry: Inquiry into Climate Resilience

Hearing Date: 20 November 2024

Question[s] taken on notice

Directed to: Mornington Peninsula Shire

Received Date: 20 and 29 November 2024

1. **John BERGER, page 8-9**

Question Asked:

Any measures that you have taken for climate resilience in your particular areas. What has been the most successful?

Melissa BURRAGE: I think this is a work in progress, so I might ask Andrew to respond to our community resilience element and very much getting our community prepared as there has been extensive work in that space. The education and the preparedness are key simply because our infrastructure cannot keep up with the pace of the change. AJ, would you like to expand on that?

Andrew JOSEPH: Thanks, Mel. I can provide an example of a program that we are running currently in Redhill and Main Ridge, which has been impacted significantly by storm events and has high fire risk as well.

Response:

2. **Melina BATH, page 11**

Question Asked:

Do you want to provide some portion of that document to the committee, if that is available now? Or is it still in its infancy?

Melissa BURRAGE: Yes. All of our hazard mapping is available, and there are 11 townships that we have nominated.
