Thankyou for the opportunity to provide input. My concern has always been the lack of consultation with the volunteers on matters concerning them. CFA is not two organisations it is one made up of volunteers and paid staff all with one mission the protection of Victorians from bushfire and other emergencies. Why can't we have one organisation with a merger of MFB and all CFA with a workable set of operating and working conditions. This shouldn't be union matter it should be a community safety matter which should be determined by the Emergency Services Commissioner with consultation with all the interested parties
