Subject: CFA. volunteers

Why don't they leave the CFA alone? They have served us well for many years.

I don't have much time for wage earning fire fighters. My reason--- I have been a member of St John first aid for over 20 years and the same thing has happened there.

They have killed off most country volunteers and replaced them with paid first aider's based in Melbourne and who wants to be ordered about by paid goons.

If paid men think they are better qualified let them do the work.

I have been a member of AWU and BWIU for most of my working life so I don't have much time for Unions. Instead of displacing so many people why wasn't Peter Marshal sacked in the first place? Cannot remember electing him into any important Office.

Problem would have been solved.
