Don't let us be FOOLS. This legislation is for the UFU demands to be passed in a new EBA . The legislation should be split. Cancer sufferers should not be used as a bribe. The CFA/MFB stalled EBA's are why this legislation is being put to parliament. The UFU can not get what they want past both fire managements. So the government wants to start a new organisation with a brand new EBA.

The idea of extending Melbourne fire boundaries have been around for decades. This idea needs community and industry input with consultation. The boundary lines needs to take account of Melbourne's 50 year population growth.

Craig Laspley the emergency Services commissioner uses the words (We Work as One) CFA uses the phrase (one CFA)

The legislation wants to separate my district officers into another fire service and then contracting them back. That scares me. Who is going to check that they are qualified for the position. Who will have final say. Under modern thinking. Team work, cohesion, pride of ownership are basic needs you need in a work force. I can not see how separating CFA staff from volunteers achieves a team environment. (One CFA)

Cost..... we have not been shown the new EBA for the new Fire Services Victoria. This needs to be investigated and debated.

Stop his legislation. Don't let them use D.A.D. Decide, Announce, Defend (DAD) decision making. It is a top-down, minimally participatory method of public management. We- our society are better than that, I hope.
