**Subject:** Fire Service Reform Bill

Peter Winter  
Senior Leading Firefighter  
MFB

32 years service full time with mfb  
plus volunteer service with nth/eastern rural service

Qualifications : EMR , Specialist Ariel appliances , MTS , CBR + 32 years as operational FireFighter .

I myself is normaly not someone to plead for a revolutionary change in my workplace structure , the current reform bill that fronts the Parliamentary committee must be passed for many reasons , my main concern is urban growth that the rural services will have difficultly maintaining, the new structure will have the ability to extend urban protection to under resourced areas , also workplace moral caused by false political advertising in my opinion is at all time LOW and has caused an enormous problem within our services , the reform will alleviate most of these issues, please consider carefully and appreciate you viewing my opinion

kind regards ... Peter Winter .
