I object to the lack of detail of the terms of this Select Committee . There is no Volunteer Firemen, no members of the community, no representatives of VFBV, CFA, or MFB on this committee. Just hand picked politicians whose knowledge of the Fire Service may be scanty at best.

Combining this restructure bill with compensation for firemen who contract caancer as a result of their work place actions is unethical and completely unacceptable.

I would be happy if the MFB remained the same but took over the outer Melbourne area e.g. Dandenong, Werribee, and leave the CFA structure as is in all other country areas.
