Firefighters' Presumptive Rights Compensation and Fire Services Legislation Amendment (Reform) Bill 2017.

As a CFA volunteer with many years of fire fighting/incident experience I have found working together with other volunteers and career staff successfully, dealing with many situations professionally, I am appalled at the lack of consultation with CFA volunteers and I urge those who are making these decisions to stop rushing legislation through parliament and take the time to listen carefully to your volunteer members, who have successfully protected their communities both suburban and rural all these years.

Provide a volunteer with the best resources, training and recognition, and they will provide service above and beyond the call of duty, far more than any amount of money could buy.

Signed
