Although a CFA Volunteer (Turnout Member) for only a short time, my concerns about the future of the CFA has increasing escalated since joining.

I strongly believe change is a critical step in any Organisation Moving Forward as long as the proposals are met with understanding, respect and charity, in a Responsible and Timely Manner

Everyday we as CFA Members Strive to Exceed Our Community's Expectations with understanding, respect and charity, in a Responsible and Timely Manner

I fail to understand how a Proposal that niether Considers These Attributes or merely even Seeks the Advice of the CFA can benefit all parties involved.

At the moment all I'm left with is the feeling of Political Gain vs Fire Fighter Integrety and Community Confidence.

Please be transparent in your approach and work with the CFA on all levels for a better outcome for all.
