I am a volunteer CFA firefighter writing to express my concern about the proposed reform and presumptive legislation.

There has been so little consultation and information that I really have no idea what it all entails. This is not for lack of trying. I am connected to all the possible CFA communications networks.

On the surface it appears the reform is under the guise of rebranding at a massive cost with "no other changes to operations or volunteers". At this expense of course there will be changes but what are they. Will a reform be accepted without them even knowing or detailing to those affected and the community what changes they intend to make?

I cannot support a proposed presumptive legislation when it is different for volunteers compared to paid staff when the risks, exposure & jobs we undertake are the same.
