Morning/Afternoon,

My name is Christy Spottiswood and I am writing to you as a concerned wife of a career CFA firefighter. I am fully supportive of the fire services reform and cancer legislation and wish to make a submission to select committee regarding the Fire Services Review. I feel the legislation will greatly improve the emergency response for the state of Victoria and improve the safety conditions under which my husband works.

Whilst I fully appreciate the importance of Volunteer firefighters I believe the reform would ensure our firefighters are working alongside and supported by individuals with current training and the highest possible skill set available.

I would like to reiterate that I support this bill which will unify and streamline the professional fire fighter services and ensure the safety of our loved ones.

Kind Regards,

Christy Spottiswood
