Subject: CFA complaint

Dear Premier

I am appalled by your continual attacks and attempts to unionise the CFA.

I don't need to waste my or your time explaining the disgust that the rural folk of Victoria have for the idea that the CFA institution could be destroyed for your political debt, or for any other asinine reason.

You Sir are an absolute shame to hold the position as the Premier of this State and I dare to say that your family will forever be disgraced by these facile attempts you make to placate the favours which the members of the MFB bestowed upon you to get you elected.

Wake up Sir and leave the CFA alone, try to engender true values of faith and morals in yourself and your parliament, and desist from this pathetic destruction attempt upon an almost religious support for the world's largest volunteer Fire Fighting Organisation.

Sincerely,

Ian J Saddington
