Subject: Fire Service Reform Submission

Dear Sir, As a career firefighter with the MFB for 28 years, and stationed mainly in the outer suburbs, I have seen unimaginable changes to the municipalities and surrounding areas that we protect. These changes are the way of the future and bring so much enrichment to our lives through diversity and culture. Unfortunately they also bring challenges in the way that we manage growing hazards that include: High density living, Traffic flows, Industrial complexes etc. I believe the model for the FRV addresses most of these challenges and is the right way to go for Victoria.
