Subject Reform evidence

Hi

I wish to provide some evidence that proves a reform is the only way forward for a modern fire service.

On a number of occasions my crews have been subject to unsafe numbers on the fireground to conduct internal attacks.

In addition there has been a great decline in the mental health of career staff due to the continual input from a third party every time we need to negotiate an EBA.

In short a reform is the only way foreword to provide a modern safe service that provides for 7 on the fireground.

Please contact for further.
