

# Historical Victorian Government asset investment: government schools

- This chart illustrates asset investment (TEI) in new and upgraded government schools from the 2007-08 Budget.
- In the 2015-16 Budget, the total asset investment in new and upgraded government schools was \$568 million TEI. This is the largest investment in government school infrastructure since the 2008-09 Budget.
- These figures do not include funding that has been provided for non-government school capital grants.
