

PARLIAMENT OF VICTORIA  
Environment, Natural Resources and Regional Development Committee

## **MEDIA RELEASE**

---

# **Response to Fiskville inquiry report tabled**

The Government response to the parliamentary committee report into the CFA training college at Fiskville has been tabled in the Victorian Parliament today.

“This is an important step for all those who made submissions and participated in public hearings for the inquiry,” Chair of the Environment, Natural Resources and Regional Development Committee, Ms Bronwyn Halfpenny MP said.

“The Committee made 31 recommendations in its final report, and in the document tabled today the Government indicates its response to each of those recommendations.”

In the response, the Government has indicated its support for the recommendations, noting that some recommendations are supported in principle or in part.

The Government has stated that where it supports a recommendation in principle or in part, it agrees with the intent of the recommendation but considers that further analysis is required or the intent of the recommendation can be achieved in another way.

“This was a very detailed and significant inquiry and the response is a crucial part of dealing with the shocking aftermath of what happened at Fiskville, and to ensure it cannot happen again,” Ms Halfpenny said.

The Government response is available from the Committee’s [website](#).
