## Introduction – Financial and Performance Outcomes Questionnaire

The Committee's inquiry into the 2023–24 Financial and Performance Outcomes examines:

- the Government's actual versus budgeted expenditure and revenue
- the actual versus target performance outcomes at a departmental/agency level
- other expenditure unforeseen at the time of preparing the 2023–24 Budget and outcomes achieved.

The inquiry aims to benefit the Parliament and the community by:

- promoting the accountability, transparency and integrity of the executive and the public sector
- encouraging the effective and efficient delivery of public services and assets.

This questionnaire seeks information on the departmental/agency financials for the 2023–24 financial year, what was achieved during the year and how that compares to expectations.

### **Consistency with the budget papers**

Whenever referring to an initiative/program/project that is in the budget papers, please use the same name as is used in the budget papers. This ensures that the Committee can correlate the information provided by the department with the information in the budget papers.

### **Basis of consolidation**

For departments, please use the same basis of consolidation as was used in the budget papers and in the budget portfolio outcomes statement in the department's annual report.
