Introduction – Financial and Performance Outcomes Questionnaire

The Committee's inquiry into the 2023–24 Financial and Performance Outcomes examines:

- the Government's actual versus budgeted expenditure and revenue
- the actual versus target performance outcomes at a departmental/agency level
- other expenditure unforeseen at the time of preparing the 2023–24 Budget and outcomes achieved.

The inquiry aims to benefit the Parliament and the community by:

- promoting the accountability, transparency and integrity of the executive and the public sector
- encouraging the effective and efficient delivery of public services and assets.

This questionnaire seeks information on the departmental/agency financials for the 2023–24 financial year, what was achieved during the year and how that compares to expectations.

Timeline and format

Responses to this questionnaire are due by 5.00pm on Friday 8 November 2024.

Please email the completed questionnaire (in word and pdf) to paec@parliament.vic.gov.au

Consistency with the budget papers

Wherever referring to an initiative/program/project that is in the budget papers, please use the same name as is used in the budget papers. This ensures that the Committee can correlate the information provided by the department with the information in the budget papers.

Basis of consolidation

For departments, please use the same basis of consolidation as was used in the budget papers and in the budget portfolio outcomes statement in the department's annual report.

Guidance

Please contact the secretariat should you require guidance in relation to any questions:

Section A: Output variances and program outcomes

Question 1 (all departments) Completed output initiatives from past budgets

For all initiatives that were completed in 2023–24 please provide details of the expected outcomes for the community and the actual outcomes achieved to date. Please use initiatives names as specified in *Budget Paper No. 3: Service Delivery* and link the initiative to the responsible output(s) and portfolio(s).

	Year and fund	ding allocated	Actual date of completion			Output(s) and
Initiative	Budget year	Funding allocated	(month and year)	Expected outcomes	Actual outcomes	portfolio(s)

Question 2 (all departments) Program outcomes

Outcomes reflect the impact on the community of the goods and services provided by a department. The questions in this section relate to the outcomes that the department contributed to in 2023–24.

- a) Using the table below, please outline the five programs that delivered the most important outcomes in the community¹ achieved by the department in 2023–24, including:
 - i. The name of the program
 - ii. The output(s) and portfolio(s) responsible for delivery of the program
 - iii. The program objectives
 - iv. The actual outcome achieved
 - v. The actions taken to deliver the actual outcome (i.e. the most important elements/essential parts that led the department to deliver the outcome).

Program	Output(s) and portfolio(s)	Program objectives	Description of actual outcome achieved	Description of the actions taken to deliver the actual outcome
1.				
2.				
3.				
4.				
5.				

- b) Using the table below, please outline the five least performing programs that did not deliver their planned outcomes in the community by the department in 2023–24, including:
 - i. The name of the program
 - ii. The output(s) and portfolio(s) responsible for delivery of the program
 - iii. The program objectives
 - iv. The actual outcome achieved
 - v. Explanation for not achieving the planned outcome (including a description of what actions were taken to try and achieve the planned outcome).

¹ 'Outcomes' are the impact of service delivery on the community rather than a description of the services delivered. An outcome could be considered important for a variety of reasons, such as the amount of funding allocated to the program, the public interest in the service or goods being delivered or where particular actions taken by the Department delivered improved outcomes.

Program	Output(s) and portfolio(s)	Program objectives	Description of actual outcome achieved	Detailed explanation for not delivering the planned outcome

Question 3 (all departments) Treasurer's Advances and other budget supplementation

a) Please identify all output(s) and portfolio(s) (and relate them to departmental programs) for which the department received additional funding after the 2023–24 Budget.

For each output, please quantify the additional funding, indicate the source of the additional funding (e.g. Treasurer's Advance, unused prior years appropriations under s32 of the *Financial Management Act 1994* (Vic), supplementation through a Temporary Advance under section 35 of the FMA, or any possible sources of funding as listed in the Resource Management Framework (2024), (section 4)) and explain why additional funding was required after funding was allocated in the Budget.

Output(s) and portfolio(s)	Program	Program objectives	Funding allocated in 2023–24 Budget	Additional funding (\$ million)	Source of additional funding as per the Resource Management Framework	Funding utilised 2023–24	Reasons why additional funding was required
	Total 2023–24						

b) Please provide the details of the outcomes achieved from each of these programs.

Output(s) and portfolio(s)	Program	Outcomes achieved

Question 4 (all departments) Central contingencies

The Resource Management Framework (2024, Section 4.5, pg. 90) provides guidance on how departments access funding from central contingencies.

Please provide information regarding funding received from central contingency in 2023–24, including: the output and portfolio or Government decision related to the funding, the amount of funding received, the amount of funding utilised, funding received through previous budgets for the same purpose and why funding from contingency was required.

Output(s) and portfolio(s) or Government decision associated	Funding received	Funding utilised 2023–24	Funding received in previous budget/s for same purpose. Please specify which budget	Reasons why funding was required
Total 2023–24				

Question 5 (Department of Health only) 2023–24 Budget funding allocation and performance

The 2023–24 Budget allocated \$2.3 billion to the line item *Meeting the needs of Victorian public hospital services*.

a) Please provide a detailed breakdown of the actual amount spent in 2023–24. Please provide an explanation for any variances of ±5% based on budgeted vs actuals by output.

Output	2023–24 Budget (\$ million)	2023–24 actual (\$ million)	Variance (%)	Explanation for variance	Outcomes delivered
Admitted Services

Question 6 (Department of Health only) Mental health and wellbeing levy

Regarding the Mental Health and Wellbeing surcharge/levy, please provide the amount of funding received from the levy in 2023-24, what outputs the department spent with the funds over 2023-24 and what outcomes were achieved.

2023-24 actual (\$ million)	Total expended for 2023- 24 financial year	Outputs the department utilised funding for	Outcomes of funding

Question 7 (Department of Families, Fairness and Housing only) Victorian Contribution to National Disability Insurance Scheme

VFMC

a) The 2023–24 Budget allocated \$2.9 billion in payments on behalf of the state to the National Disability Insurance Agency.² In relation to outcomes achieved in 2023–24, please provide the following information on disability services and support in Victoria:

Department of Families, Fairness and Housing	30 June 2022	30 June 2023	30 June 2024
Number of people with disability in Victoria			
Number of NDIS participants			
Number of NDIS participants - identified as culturally and linguistically diverse			
Participant satisfaction with services received			
Average wait time to access NDIS package			
Disability workforce - number of workers			
An update on NDIS Workforce and Skills Plan			

b) In 2023–24 what disability services did the Victorian Government provide?

c) Please outline the three most significant disability services/programs provided by the Victorian Government in 2023–24, including amount expended, funding source and outcomes achieved for people with disability.

Service/program	Amount expended in 2023–24	Funding source	Outcomes achieved for people with disability

Section B: Asset investment

Question 8 (all departments) Capital expenditure variances, completion date and scope changes – existing projects Please provide details of all capital asset programs where:

- a) there was a variance between TEI at announcement compared to the TEI as at 30 June 2024 of equal to or greater than ±5% and an explanation for the variance
- b) the estimated completion date at announcement is different to the completion date as at 30 June 2024 and an explanation for the change
- c) the scope of the project at announcement is different to the scope of the project as at 30 June 2024.

Capital expenditure

Project	Output(s) and portfolio(s) and/or agency responsible for the project	Total actual expenditure from announcement to 30 June 2024 (\$ million)	TEI at announcement (\$ million)	Revised TEI as at 30 June 2024 (\$ million)	Variance between TEI at announcement compared to revised TEI as at 30 June 2024 Budget (±5%) explanation

Completion date

Project	Output(s) and portfolio(s) and/or agency responsible for the project	Estimated completion date at announcement	Revised completion date as at 30 June 2024	Explanation

Scope

Project	Output(s) and portfolio(s) and/or agency responsible for the project	Scope at announcement	Details of scope change(s) and date(s) scope changes occurred	

Question 9 (all departments) Details of actual capital expenditure – completed projects (or expected to be completed) Please provide the following details about asset investment projects that were completed in 2023–24:

- a) Project name, project objectives and Department(s), Output(s) and Portfolio(s) and/or Agency/Agencies responsible for delivery of the project
- b) Total Estimated Investment (TEI) at announcement
- c) Actual cost of project
- d) Estimated completion date at announcement
- e) Actual completion date
- f) Explanations for any variance in capital expenditure and/or completion date.

Project	Original project objectives	Responsible Department(s), Output(s) and Portfolio(s) and/or Agency/Agencies	TEI at announcement (\$ million)	Actual cost of project (\$ million)	Estimated completion date at announcement	Actual completed date	Variance explanation (\$ value variance and/or time variance)

Question 10 (all departments) High-value high-risk projects, gateway reviews and business cases

Under the High Value High Risk (HVHR) Framework, a project will be classified as HVHR if it is a budget funded project that has a Total Estimated Investment (TEI) of over \$250 million. HVHR projects are subject to compulsory Gateway reviews, where Gates 1 through 6 are compulsory for all eligible projects: Gate 2 outlines the development of a business case.

Please list all projects included in 2023–24 that were allocated to the department and were classified as HVHR and the project objectives. Please also specify which Gateway reviews, if any, were completed during 2023–24 and business case details for each project.

HVHR Project	Original project objectives	Gateway review name/ Date completed	Date business case completed	Business case – publicly available? Y/N	Business case link (URL)

Question 11 (all departments) Public Private Partnership (PPP) expenditure – existing and completed

Please provide the following information related to the department's PPP projects:

- a) The total estimated PPP investment value, the total actual expenditure from announcement to 30 June 2024, or the actual expenditure to 30 June 2024 and the benefits of using the PPP financing model when delivering/funding a project over other financing methods.
- b) Where the estimated completion date at announcement is different to the completion date in the 2023–24 Budget, and an explanation for any variance.
- c) Where the scope of the PPP at announcement is different to the scope of the project as it is presented in the 2023–24 Budget.

Investment value and benefit of using PPP model

Project name	Project objectives	Output(s) and portfolio(s) and/or agency	Total estimated PPP investment value at the start of the project (\$ million)	Total actual expenditure since the announcement to 30 June 2024 (\$ million)	Actual expenditure in year ending 30 June 2024 (\$ million)	Benefits of using PPP model versus other delivery/funding models

Completion date

Project name	Output(s) and portfolio(s) and/or agency	Estimated completion date	Revised estimated completion date	Variance explanation

Scope

Project name	Output(s) and portfolio(s) and/or agency	Original scope	Revised scope	Explanation for scope changes

Question 12 (DTP only) Alliance contracting expenditure – existing and completed

Please provide the following information related to the department's alliance contracting projects:

- a) The total estimated investment value, the total actual expenditure from announcement to 30 June 2024, or the actual expenditure to 30 June 2024 and the benefits of using the alliance contracting model when delivering/funding a project over other financing methods.
- b) Where the estimated completion date at announcement is different to the completion date in the 2023–24 Budget and an explanation for any variance.
- c) Where the scope of the alliance contract at announcement is different to the scope of the project as it is presented in the 2023–24 Budget.

Investment value and benefit of using alliance contracting model

Project name	Project objectives	Output(s) and portfolio(s) and/or agency	Total estimated investment value at the start of the project (\$ million)	Total actual expenditure since the announcement to 30 June 2024 (\$ million)	Actual expenditure in year ending 30 June 2024 (\$ million)	Benefits of using alliance contracting model versus other delivery/funding models

Completion date

Project name	Output(s) and portfolio(s) and/or agency	Estimated completion date	Revised estimated completion date	Variance explanation

Scope

Project name	Output(s) and portfolio(s) and/or agency	Original scope	Revised scope	Explanation for scope changes

Section C: Revenue and appropriations

Question 13 (all departments and entities) Revenue – variances from previous year

Please explain any changes equal to or greater than ±10% or \$100 million between the actual result for 2022–23 and the actual result for 2023–24 for each revenue category detailed in your operating statement. Please also indicate what any additional revenue was used for or how any revenue reductions affected service delivery and then link it to the relevant output and portfolio.

VFMC

Please also detail the outcomes in the community³ achieved by any additional expenses or the impact on the community of reduced expenses (if there was no impact, please explain how that was achieved).

For departments, please provide data consolidated on the same basis as the budget portfolios outcomes statement in your annual reports.

If there were no revenue/income categories for the department/agency for which the 2023–24 expenditure changed from the prior year's expenditure by more than ±10% or \$100 million, you do not need to answer this question. If this is the case, please indicate 'no relevant line items' in the table(s) below.

³That is, the impact of service delivery on the community rather than a description of the services delivered.

Section C: Revenue and appropriations

Revenue category	2022–23 actual (\$ million)	2023–24 actual (\$ million)	Explanations for changes ±10% or \$100 million	How the additional revenue was used/the impact of reduced revenue. If no impact, how was this achieved	Relevant output(s) and portfolio(s)
Portfolio management and custodian fees	181.9	229.5	This line item includes the management fees that VFMC charges its clients in relation to services directly provided by VFMC and the recovery of external management and performance fees from clients. Both of these items of income increased during the year. The increase in management fees that VFMC charges its clients for its services increased in 2024 as a result of an increase in Funds Under Management (FUM) over the period. VFMC experienced material FUM growth, mainly due to the \$8.1b received from Victorian Future Fund in Septem23. Total FUM grew from \$73.7b to \$86.8b. The increase in the management fees relating to the recovery of external fees is driven by a \$4bn increase in FUM with external managers who issue discrete fees.	Additional revenue that VFMC charges its clients for its services was offset by lower performance fees. The increase in the management fees relating to the recovery of external fees is a cost recovery so offset in the expenses line.	n/a
Performance fees	8.5	5.2	The decrease in performance fee revenue is due to lower out-performance over benchmarks as compared to the prior year.	Refer above.	n/a
Interest income	1.6	2.4	The increase in interest income is due to the increase in VFMC's cash balance (\$61.0m at Jun24 v \$51.6m Jun23).	Not material	n/a

Question 14 (all departments and entities) Revenue – variances from budget to actual

Please explain any variances equal to or greater than ±10% or \$100 million between the initial budget estimate (not the revised estimate) and the actual result for 2023–24 for each revenue category detailed in your operating statement. Please also indicate what any additional revenue was used for or how any revenue reductions affected service delivery and then link it to the relevant output and portfolio.

For departments, please provide data consolidated on the same basis as the budget portfolios outcomes statement in your annual reports.

Revenue category	2023–24 Budget estimate (\$ million)	2023–24 actual (\$ million)	Explanations for changes ±10% or \$100 million	How the additional revenue was used/the impact of reduced revenue. If no impact, explain why	Relevant output(s) and portfolio(s)
Portfolio management and custodian fees	192.5	229.5	In relation to the fees that VFMC charges its clients for its services, the increase is due to the increase in FUM against Budget. FY23 opening FUM was +\$1.3b on Budget and FY24 closing FUM was +\$4.8bn on Budget. Resulting in a larger than budgeted revenue across the 12mths. With regards to revenue derived from the recovery of external management fees, the overall increase to FUM exceeded expectations. This led to an increase in the discrete fees issued by external managers and therefore the revenue related to their recovery.	Additional revenue that VFMC charges its clients offset by lower performance fees. The increase in the management fees relating to the recovery of external fees is a cost recovery so offset in the expenses line.	
Performance fees	18.2	5.2	Performance fee revenue was significantly below plan due to investment performance significantly lagging plan projections.	Refer above.	
Interest income	2.1	2.4	Growth in VFMC cash balance.	Not material	

Section D: Expenses

Question 15 (all departments and entities) Expenses changed from previous year

Please explain any changes equal to or greater than ±10% or \$100 million with regards to the actual result for 2022–23 and the actual result for 2023–24 for each category of expenses detailed in your operating statement. Please explain any changes equal to or greater than ±10% or \$100 million with regards to the actual result for 2023–24 and the 2023–24 budget estimate. Please also detail the outcomes in the community⁴ achieved by any additional expenses or the impact on the community of reduced expenses (if there was no impact, please explain how that was achieved).

For departments, please provide data consolidated on the same basis as the budget portfolios outcomes statement in your annual reports.

Expenses category	2022–23 actual \$ million	2023–24 actual \$ million	Explanations for variances ±10% or \$100 million	Outcomes achieved by additional expenses/impact of reduced expenses. If no impact, how was this achieved
Portfolio management and custodian expenses	111.1	150.2	The management fee expense comprises only external fund manager fees - these fees are recovered from clients.	These fees are recovered from clients.
			The increase in this expense is due to the increase in FUM being managed by external providers who issue discrete invoices (rather than embedded fees which do not impact the business' performance).	
Depreciation and amortisation expenses	2.5	3.5	Amortisation increased on FY23 levels due to the capitalisation of the Data & Analytics platform across the FY21-FY24 periods.	Increase in expense for FY24 is a representation of delayed expenditure of capitalised costs. Those assets have continued to be utilised in FY24.

⁴That is, the impact of service delivery on the community rather than a description of the services delivered.

Expenses category	2023–24 actual \$ million	2023–24 actual \$ million	Explanations for variances ±10% or \$100 million	Outcomes achieved by additional expenses/impact of reduced expenses. If no impact, how was this achieved
Portfolio management and custodian expenses	112.7	150.2	The expenses related to external management fees increased against budget due to the overall increase in FUM for external managers that charge discrete fees to VFMC.	These fees are recovered from clients.
Employee benefit expenses	43.5	39.7	Variance to Budget mainly due to lower than Budgeted incentives being earnt (applicable to the Investments Team only). Plan assumed payout was at target.	Savings offset by lower than planned revenues.
Other operating expenses	34.2	30.6	Savings mostly across legal, tax, insurance and travel.	Savings offset by lower than planned revenues.

Question 16 (all departments, PFC, PNFC and entities) Changes to service delivery from savings initiatives

For each of the savings initiatives detailed in the 2023–24 Budget please provide the following details of the impact on service delivery:

- a) Savings target in the 2023–24 Budget and the amount of the savings target allocated to the department/entity.
- b) Actual savings achieved in 2023–24 and the actions taken to achieve the savings target allocated and their impact, including the link to the relevant output and portfolio impacted.

Savings initiative in the Budget	Savings target allocated to the department/ entity in 2023–24 \$ million	Actual savings achieved in 2023–24 \$ million	Actions taken to achieve the allocated savings target	What was the impact as a result of the measures taken to achieve the savings target? Question 17 (all departments) Achievement of reprioritisation of existing resources

The 2023–24 Budget included targets for 'reprioritisation and revenue offsets' to fund new initiatives (*2023–24 Budget Paper No. 2,* p. 59). This is in addition to any savings or efficiencies resulting from expenditure reduction measures. For the department (including all controlled entities),⁵ please indicate:

- a) what areas of expenditure (including projects and programs if appropriate) the funding was reprioritised from (i.e. what the funding was initially provided for)
- b) what areas of expenditure the funds were spent on
- c) for each area of expenditure (or project or program), how much funding was reprioritised in each year
- d) the impact of the reprioritisation (in terms of service delivery) on those areas.

Area of expenditure originally funded	Area of expenditure actually funded	Value of funding reprioritised in 2023–24 (\$ million)	Impact of reprioritisation of funding. If no impact, how was this achieved	Output(s) and portfolio(s) impacted (if relevant)

⁵ That is, please provide this information for the department on the same basis of consolidation as is used in the budget papers.

Question 18 (all departments) Contractors, Consultants and Labour Hire Arrangements

a) Please indicate how much the department spent on contractors (including labour hire) and consultant arrangements during 2021–22, 2022–23 and 2023–24. Labour hire arrangements include the cost of engaging the labour recruiting firm, plus additional costs paid to the labour recruiting firm for the provision of the services of the contractor. Please also explain variances equal to or greater than ±10% between years and list the business areas impacted and how.

Question 19 (PNFC and PFC entities only) Dividends and other amounts paid to the general government sector

Please detail the type and value of dividends, amounts equivalent to dividends, non-dividend grants, and capital repatriations paid by your agency to the general government sector in 2023–24, explaining the reasons for any significant changes over that period and the impact of any changes on the entity.

Please provide the economic funding ratio or accounting funding ratio as applicable at 30 June 2024. Please provide details of the methodology used for the ratio calculation.

Type of dividend paid	2023–24 Budget (\$ million)	2023–24 Actual (\$ million)	Explanations for variances ±10% or \$100 million	Impact on the agency (including on financial position, investment, impacts on service delivery or infrastructure projects). If no impact, how was this achieved.	Funding ratio at 30 June 2024
Final FY23 Dividend	6.5	3.6	Dividend payout of 50% of after-tax surplus maintained. A lower than anticipated surplus after tax led to a reduced dividend being paid vs plan.	No impact as the business has sufficient retained earnings and cash.	n/a
Efficiency Dividend	0.7	0.7	FY23-24 efficiency savings payment.	No impact as the business has adequate cost savings to fund the dividend.	n/a

b) For 2023–24, please provide information regarding any staffing challenges faced by the department, including but not limited to: staff shortages by category or position name, positions that were hard to staff, positions that were vacant for 6+ months, positions that have not equalled or surpassed attrition.

2023-2024

The business has at times, depending on the role, experienced a highly competitive market when recruiting. This is mainly driven by the relatively small employment pool and the high demand from other entities seeking to fill similar roles with like candidates and experience. We also always aim to have a gender balanced candidate pool which at times, depending on the role, can be challenging.

In the table below, please detail the salary costs for 2021–22, 2022–23 and 2023–24, broken down by ongoing, fixed-term and casual, and explain any variances equal to or greater than ±10% or \$100 million between the years for each category.

Employment category	Gross salary 2021–22 (\$ million)	Gross salary 2022–23 (\$ million)	Gross salary 2023–24 (\$ million)	Explanation for any year-on-year variances ±10% or \$100 million
Ongoing	20.32	20.4	22.5	As the employment market tightened over the last 12 months, we have had less turnover and therefore fewer roles unfilled for periods of time throughout FY24. We also returned to full employment through the year. All of this led to the increase in employment-related costs.
Fixed-term	4.52	8.28	9.57	In addition to the above, the increase in the fixed term contractors has been impacted by the business transitioning from day rate contractors and onto fixed term contracts in line with the state purchasing contract requirements.
Casual	0	0	0	-
Total	24.84	28.32	32.07	See above

Question 22 (all departments and entities) Salary by employment category

Question 23 (all departments and entities) Executive salary increases

Please detail the number of executives who received increases in their base remuneration in 2023–24, breaking that information down according to what proportion of their salary the increase was, and explaining the reasons for executives' salaries increasing in each bracket.
