

Minister's Response

On 16th December 1998, the Minister for Health released his response to the Economic Development Committee's Report into Medical and Public Health Research in Victoria.

The Minister's response incorporated a Report published by the Public Health and Development Division of the Victorian Government Department of Human Services titled "***Investing in Health Strategic directions for medical and public health research in Victoria***".

Investin in health incorporates many of the Committee's findings and recommendations and carries forward the momentum of the Committee's work.
