

# Legislative Council Environment and Planning Committee

**Hearing Date:** 13 September 2023

**Question[s] taken on notice**

**Directed to:** Murray Dairy, Jenny Wilson

**Received Date:** 18 October 2023

1. **Wendy LOVELL, page 27-28**

**Question Asked:**

I am really interested in what the value of the loss was to the dairy industry and also to the hort industry of this season - dollar value?

**Response:**

It was estimated that 1.5million litres of milk was dumped as a consequence of floods preventing tanker access to some farms over a 2 week period in October. Please see Flood impacts on dairying regions for further description of the flood impacts
