**Question[s] taken on notice**

**Directed to:** Mark Smith

**Received Date:** 3 October 2023

1. **Bev McARTHUR, page 48-49**

**Question asked:**

To provide a study out of Jamaica with breastfeeding women that were using cannabis, and there were no negative impacts on the children.

**Response:**

See link below

2. **Bev McARTHUR, page 51**

**Question asked:**

To provide evidence on the endocannabinoid system, and exogenous.

**Response:**

[Five-year follow-up of rural Jamaican children whose mothers used marijuana during pregnancy - PubMed \(nih.gov\)](#)

[Prenatal marijuana exposure and neonatal outcomes in Jamaica: an ethnographic study - PubMed \(nih.gov\)](#)

[The endocannabinoid system: Essential and mysterious - Harvard Health](#)

[An introduction to the endogenous cannabinoid system - PMC \(nih.gov\)](#)

[First book on Thai traditional remedies using ganja \(bangkokpost.com\)](#)

Here is evidence of some recipes and literature alluding to Traditional medicine recipes.

In terms of the quote suggesting a shortage of cellulose man-made fibres. I provide the following document link to substantiate the claim.
