

## **Loddon Campaspe Multicultural Services Figures on JVEN clients and employment outcomes pre and post 26 weeks**

Multicultural Services' Employment Program is funded by JVEN via a partnership with Access Australia.

Between November 2016- November 2019 we have:

- Worked intensively with 101 clients (JVEN registered)
- Provided minimal support to an additional 53 clients, e.g. help to write a resume (not JVEN registered)
- Of the 101 JVEN registered clients:
  - 26 either did not gain employment or stayed at work for less than 3 weeks and were not successful in gaining a second job (26%)
  - 2 gained employment but left between 3 and 26 weeks and were not successful in gaining a second job placement (1%)
  - 70 gained employment and were still employed after 26 weeks and an additional 3 left employment but were then supported to gain a second position which they stayed in (73%).
  - Of the 73, 5 left employment after 26 weeks:
    - Client A: after 2 years
    - Client B: after 2 years
    - Client C: after 1.5 years
    - Client D: after 1 year
    - Client E: after 26 weeks, then went on to another employer
  - Of the 73, the remaining 68 are still in employment at the time of writing (between 6 months and 3 years of employment)
