Hello,

My name is Sarah Oesterle,

I have been a Lighting Systems Technician in the events industry for over 21 years. My whole life revolved around my career which I loved and enjoyed. My friends and "Tour Families" were the same. This all came to a crushing end for us in March 2020 and again on March 26th 2021.

WE WANT TO WORK,
But while we understand and respect that we can't WE NEED HELP.

Especially when there 750 Qantas international flight staff are set to continue receiving job keeper and but not entertainment?

Why is Marvel Stadium and Suncorp Stadium hosting large scale football games, when live music cannot do the exact same thing?

Its really painful and difficult to not take these things personally when you see the double standards in our day-to-day lives.

We have been repeatedly dismissed, forgotten about and left behind.

We are a multimillion industry, we contribute to the economy, we pull our weight.

Please see attached the Recommendations as outlined by Save Victorian Events Team, which I wholly support

I thank you so much for your time and consideration,
All the best,

Sarah
