To whom it may concern

I 100% support the Save Victorian Events Recommendations.

On top of that I would like you to take the time to understand I personally have lost all my staff, have had no revenue in over 12 months - we turned over 2M dollars prior to the pandemic and employed 5 full time, 5 part time and loads of casual staff. Most of the experienced people have now left the industry, I have been diagnosed with PTSD and I cried watching the enquiry.

There was an entire workforce of event professionals who could have managed hotel quarantine, contact tracing, and set up testing site. Instead, we were forgotten about while all the unions got a look in and stuffed up the job at hand. Over 800 dead!!! 3 lockdowns!!!

To say I'm upset is an understatement.

Thanks TJ
