**Subject:** Hazelwood closure

**Categories:** Submission to be processed

Hi.

Here's my submission.

I was a casual employee at loy yang a power station for over ten years as a tradesmen with tw power and the many other names that company went by over them years. Once the closure was announced us long term casuals knew our days as loy yang employees were over. Over the next 12 months I proceeded to train two ex hazzelwood power employees up to do my job. Once budgets were cut at the same time my partner went into labour I was told my services were no longer required. This caused great financial strain and mental health issues.
