

Inquiry into the Closure of the Hazelwood and Yallourn Power Stations

Dr Benjamin Lewis

Organisation Name:Healthy Futures

Your position or role: member

YOUR SUBMISSION

Submission:

The transition of the Latrobe Valley to a clean energy hub of the future requires significant long term investment in order to support the local population through the process. Care needs to be taken to protect livelihoods and the culture of the Latrobe Valley community. I wish to support the submission made by Healthy Futures to lock in long term funding for the Latrobe Valley Authority as it undertakes this transition
