Our laws let anyone from overseas with a licence drive here. This is not good as Drivers Licences can be bought for cash with no skill. These drivers are scared and normally do 20+ kmphr less than the limit, creating dangerous situations. Perhaps compulsory testing or NO INSURANCE coverage (as per other countries) The other simple problem to address is all the signs stating"keep left unless over taking" have been removed from most arterial roads and free ways...(and toll rd) foreign and young drivers don't know about this LAW. Toll road speed limit is to low at 80kms all the time, and variable signs should react to traffic flow. AI simple fixes but I'm sure policing or corruption will win as usual.
