YOUR SUBMISSION

Submission:

As recently acquired a rural property in Redbank and planning to spend the majority of my time living there, the potential of using local school buses for transportation would be an absolute asset to my daily living.

I don't drive and the expense of catching a taxi to the nearest towns Avoca/ Moonambel for basic supplies and connections to greater Victoria will drain the budget enormously.

A local school bus is the perfect answer to foster independence for all in the expanding local community. This will also reduce carbon footprint in the environment as there is the possibility of others leaving the car at home and utilising the bus.
