Submission:

Adding the general public to our school buses poses a huge risk to students who use the bus. Also the bus driver is responsible for the kids on the bus, who is going to be responsible if an incident occurs to a child eg. groped, kidnapped ect? Thats irresponsible of the government to even consider exposing children to such great potential risks. Many of the school buses are also full, some have a wait list because we cant get more busses for that route.
