### **YOUR SUBMISSION**

**Submission:**

The township of Warburton is under increasing pressure from tourism traffic. The town is a beautiful place with a strong and connected local community that largely welcomes tourism and visitors. Particularly post Covid, the town is struggling with vehicle infrastructure and as part of our local Chamber of Commerce group (CEDA) we have just started to explore the idea of setting up a park and ride bus service, to bring visitors, but also locals into Warburton, and even out to Redwoods Forrest. This bud service would be particularly useful on weekends and would provide a vital link to bring visitors into town, quickly, safely and really easing the local congestion. Local would be pleased, businesses would be pleased and visitors would be able to move throughout the Upper Yarra Valley with ease and enjoy a much better tourism experience. Busses could be used on weekends, and existing employees could pick up extra shifts throughout the week. I would really like this submission to be considered, and I would be happy to talk further about it.

Thanks. Matt.
