### **YOUR SUBMISSION**

**Submission:**

I do not agree with rural school buses becoming public Transport for rural/town residents. Our rural school bus system is run from Echuca College and does not have the room for all the students wishing to access a bus to school. What then happens to rural students when the bus drives passed them in the morning because it is full of adults who are using it as public transport?? How do our students get to school then?? Not all kids have parents at home who can drive them into school when the bus is full!!! Put on proper public transport if there is a demand for it in rural areas instead of using SCHOOL buses!!!
