### **YOUR SUBMISSION**

**Submission:**

My concern into residents using the school bus is the availability of seats. I know the school bus are very full and I would hate for a student to be denied access. The school bus to me is a safe place for students travelling on their own. Having members on the bus when a child has no parents supervision is very concerning to me. The possibility of students that have left school and require the bus for further education or first job has merit as long as all the safety procedure have been followed.
