### **YOUR SUBMISSION**

**Submission:**

The school bus has a drop off and pick up point near my home in Lethbridge. It only picks up a small number of school children. For the size of bus it could easily carry more passengers. As a senior in this area, a regular bus to the township of Bannockburn and beyond could be handy. Although I do drive and have a car, there are others in my area who are unable to drive or have the use of a car. If travel on the school bus was available, it would make it easier to get medical appointments in Bannockburn or Geelong for example. This would also be an economical use of the bus, as it is traveling with so few students, seniors and others paying a small fee, would help cover costs. Pick up and drop off times could stay the same as currently in use.
