Your position or role:

YOUR SUBMISSION

Submission:

I traveled by dedicated school bus for 50 minutes each way, every school day, for 5 years of my secondary schooling years. I lived in a small rural town.

I do not support the motion that busses that carry school aged children to and from school may carry general members of the public.

There should remain a dedicated school bus that operates solely for the purpose of transporting school aged children to and from school.

No general public should be allowed to enter the dedicated school bus, which should be a protected, safe environment for our children, with no access to potential yet unknown predators.
