To whom it may concern. As a parent of four children of whom all travel on our local regional school bus network strongly oppose the notion of allowing random strangers to travel unchecked with our children. Every person involved in the education of our children go through checks to ensure the suitability of their character to perform within their roles. This is now under threat with this ridiculous idea of opening up the school bus system to anyone and everyone. This is just another example that shows out of touch this current Victorian government is with the people it is meant to SERVE. We can only hope common sense prevails. Yours sincerely ██████████
