YOUR SUBMISSION

Submission:

I disagree with public passengers sharing buses with school children. It is unsafe for children to be unsupervised on a bus with members of the public. Parents currently feel safe allowing their children to travel on school buses as if there are any issues of misconduct amongst other children, the perpetrators are identifiable and issues are dealt with by their school. The buses are also often at capacity and children may be left without transport to school. Add additional buses for public - no sharing please.
