I would like to see more availability for students in our estate (Waterford Rise Estate Warragul), to access the school bus system. As two full time parents with two children attending Marist Sion College, I believe we should have access to a bus service for our children . This would also ease the huge amount of congestion at the school at school drop off and pick up times as there would be less cars on the road. As we pay a considerable amount for our children to attend such a school I believe we should have access to such a service. I see numerous buses outside the estate , yet no safe option has been granted , instead I see children crossing a very busy freeway in order to access the estate of an evening. I have reached out to people on facebook and they too face the frustration of trying to seek alternative options for their children. This estate is a huge estate and is growing at a rapid rate . I believe there would be more students from Marist Sion wanting to access a bus service if it was offered to us. After conversations with the school , all I am told is there is not one at the moment . Please consider a service that picks up from Waterford Rise and passes Marist Sion College as we deserve to have access just like others in the community.

Thank You
