Concerned citizen ,Currently or have had a lived experience of homelessness

Are there any additional themes we should consider?

Investigation into the funding given to peak bodies and the discrimination against mental health.

YOUR SUBMISSION

Submission:

I am still writing my submission. I have written to multiple members of parliament with no response so still putting it together.

Hard to write a statement when you do not have stable housing and are in a crisis.

I have 10 years of problematic issues in the homelessness sector that has contributed to the downfall and inability to get my mental health back on track even with therapy as that is almost pointless when you do not have Maslow's Basic Hierarchy of needs

With no help from crisis centres or mental health facilities. Especially when you are high functioning mental health at times and are told that you "Dont seem like you need help"

The Department and the Centres have failed me.

Do you have any additional comments or suggestions?:

Please allow my to speak to help future Australians
