### YOUR SUBMISSION

**Submission:**

As a previous Foster Carer, it opened our eyes to just how much sexual assault there is on children! The Royal Commission also found this but has chosen to do nothing??? Knowing how many people in AUTHORITY are involved, but they are still serving??? This has been an absolute disgrace.....might as well just tell our children we can't protect them due to our Authorities all protecting eachother, rather than them. We need a public register....it is the ONLY way to help protect our most vulnerable

**Are you interested in appearing before the committee in person to talk about your submission?**

No
