Do you have any additional comments or suggestions?:

it is undeniable that Cannabis has many health benefits. The economic benefits will be through the roof. This will assist Victoria through this current economic downturn due to the Corona virus. Full legalisation with the ability to grown home grown plants will allow everyone to grow their own medicine, and for those who can't grow can go to a dispensary to purchase the appropriate product, and receive the correct advice while they are there.

Don't be scared! Just legalise it. It should never had been criminalised in the first place. Our grandparents grew up using Cannabis as a medicine
