YOUR SUBMISSION

Submission:

The easiest way to reduce underage use of cannabis is to a: make the most economical and simplest way to access marijuana to be via shop fronts and away from illegal cannabis dealers (thus reducing crime) and b: in making these places the primary access points they control point of sale ID checks, provide health warnings on the packaging and make them aesthetically unappealing. And finally legalisation helps remove the taboo around getting professional help for substance reliance and making the pathways much clearer and easier to access.
