YOUR SUBMISSION

Legalising and controlling the sale and use of marijuana is can benefit multiple parties.

I believe great medical research in the fields of mental health and rehabilitation can be achieved.

Additionally with having dispensaries it's easy to monitor demographic and use of the substance. This would also open up the chance to tax products used with the substance and the substance itself.

Opening dispensaries could also lower smaller drug dealers.

Do you think there should there be restrictions on the use of cannabis? :

Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service), Personal use of cannabis should be legal. Sale of cannabis should be legal and regulated. Cultivation of cannabis for personal use should be legal.
