Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service),Personal use of cannabis should be legal. ,Sale of cannabis should be legal and regulated. ,Cultivation of cannabis for personal use should be legal.

### YOUR SUBMISSION

**Submission:**

As a daily cannabis user I believe the need for regulation and legal supply is more than overdue. People will always smoke cannabis or inject it somehow and on a black market there is no regulation of the product. Legally produced and supplied weed would see a higher quality, more consistent product that could be worked through breeding programs to deliver more health benefits and a more well rounded cannabinoid profile instead of the THC high strains that illegal drug organizations grow based off maximum potency and yield per plant.
