Are there any additional themes we should consider?

Select all that apply. Do you think there should be restrictions on the use of cannabis? :

Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service), Personal use of cannabis should be legal. , Sale of cannabis should be legal and regulated. , Cultivation of cannabis for personal use should be legal.

YOUR SUBMISSION

Submission:

At the very least CBD products should be legal. The health benefits are well documented. I think this could be a first step that the state could make without ruffling too many feathers.

Do you have any additional comments or suggestions?:

Oh the shuffling of items didn't work. But that question wasn't very clear anyway, some of the areas could be negative and positive, for example mental health ie. Cannabis induced psychosis (high THC) vs treatment for anxiety (CBD formulas).
