YOUR SUBMISSION

Submission:

Cannabis is a very safe drug.

Some children will access cannabis regardless of prohibition.

Popular reservations about cannabis use are due to fear of a change in consciousness, but what the world most needs now is a change in consciousness. Cannabis use facilitates personal body awareness related to biological awareness more generally. Cannabis use favours environmental / ecological awareness. Australian Aboriginal people find their way back to 'country' by using cannabis.

Cannabis use should be made legal and more readily available to facilitate ecological values in this time of impending ecological collapse
