I believe cannabis should be decriminalized, Persons should be allowed to possess 3 plants, the stage of growth is irrelevant, it is 3 only. Alternatively the government could grow process and sell it and the amount of income would be excessive, as certain states in america discovered,, I believe persons selling it should face heavy penalties, it should be for personal use only. as to ensuring that minors dont get access to it, well all the years and advertising and programmes has not stopped minors getting beer and cigarettes, best of luck,
