YOUR SUBMISSION

Submission:

It is my humble opinion that marijuana should be legalized, regulated and sold to the general public for private or social consumption.

Studies show conclusively that cannabis is far less dangerous than alcohol.

Countries and States around the world that have already legalized have proven that the benefits far outweigh the cons.

Taxes brought in from sales to the public can be used to fund education, public health, or infrastructure. Legalizing cannabis in Victoria for recreational use will only benefit our citizens, our Government, and our state.

There is a black market that's not going away. As long as the Government keeps cannabis illegal, the black market and criminal organizations thrive. Legalizing takes away their demand.
