### YOUR SUBMISSION

**Submission:**

As we all know there are regional towns/farmland/community going fallow and broke. With no money in or staying in these places.

I put forth the idea to decriminalise and regulate the cultivation of cannabis to limit of 100 plants per farm, keeping the industry small and opening up the spaces of small dying regional towns for cultivation.

What would happen is more young people would be interested getting back out country side with possibility of work and money going directly back into that community

**Do you have any additional comments or suggestions?:**

It is about time for an inquiry into cannabis and the laws and possibilities of change, specially in our dieing rural communities
