### YOUR SUBMISSION

**Submission:**

Cannabis is a non-harmful drug and is a complete joke that it has not already been legalised seeing all the benefits it has brought to countries that have already legalised it like New Zealand and Canada and certain European countries.

The amount of tax revenue it would bring to Victoria would be immense and a great help to the state.

Cannabis should be completely legal for individuals to grow themselves while also having the government and private businesses set up shops for people to buy from safely.

**Do you have any additional comments or suggestions?:**

Cannabis will always be a part of many Australians lives, legal or not. Legalising it will bring safety to the community by having legal shops to buy from and not having to go to the local sketchy bokie or dealer.
