### YOUR SUBMISSION

**Submission:**

It is my opinion that well regulated legalised access to cannabis for those over 18 creates a framework to address all of the terms of reference.

I believe that incentive would be created for adults to purchase legal cannabis as it's guaranteed to be safe, consistent, and reasonably easy to access. This would presumably reduce the ready supply of the drug illicitly, limiting access by children and teens. Education and fines, similar to alcohol, around supply, impact, and general risks as well as those caused by driving while under the influence would contribute to protecting public health.

It is also my opinion that general access to cannabis would allow those with chronic pain and mental health issues like anxiety to identify what, if any, help cannabis may provide them without stigma or the overhead of oversight by government bodies.
