Submission:

I am sharing my personal opinion on the matter. I believe Cannabis is a safe drug that has been incorrectly categorised.

Many journalists have written stories about how Cannabis is used to fund other illegal activities which have greater public health consequences such as methamphetamine.

Tax revenue from sales can be used to fund other public health/ education initiatives, which would help provide a stronger recovery post covid-19.

Cannabis should be treated like cigarettes where there should be no advertising and taxed to limit consumption.

Roadside testing should be improved to determine actual impairment in ability to control a vehicle and not just testing to confirm if there is any THC content at all. This should happen regardless of any policy change on the use of Cannabis.
